

Altavilla Vicentina, May 15th 2019

BURGO CARTACEO#01 AND ILLUSTRIFESTIVAL 2019

[Illustrifestival](#) 2019 will be held in Vicenza from May 18th to June 23rd, with the collaboration of Burgo Group which will present its project *Cartaceo#01, Paper: a never-ending material*. After the success of [BookCity](#) Milano 2018, the illustrations of [Emiliano Ponzi](#) and the storytelling of Gabriella Greison arrive in Vicenza to tell us a story about the paper as an never-ending material, a material with endless possibilities, born from a machine that seems to never end, which throughout human history has taken our dreams and stories and propelled them into the future in a never-ending exchange, transforming over and again into new and different products.

The exhibition inside the [Basilica Palladiana](#) (Sala degli Zavatteri), curated by [Francesco Poroli](#), reproduces the unfolding of a leporello, the paper object created by the collaboration between Ponzi and Greison, while the animations curated by Emiliano Ponzi run on a monitor together with the reading of the story *Paper: a never-ending material*.

The opening of all the exhibitions is scheduled for Saturday, May 18th from 10.00 am.

The complete program and contents of the exhibitions are available at the following link:

Burgo Group

Burgo Group is one of Europe's leading producers of communication and specialty paper. The Group is configured as a true 'system', developed around the world of paper: from the production, marketing, recycling of paper and the processing of forestry products, as well as factoring and energy. A complete range of high quality products, an attitude to the research and development of innovative solutions, great attention paid to the environment: this is how Burgo Group presents itself as the benchmark partner in the communication, press and printing and converting sectors, thanks to a business vision that fits into a wider system. It is not by chance that Burgo Group makes sustainable development and the principles of the circular economy a core part of the business which is present in all processes, from purchase and use of resources, to the return of waste water, as far as the optimisation and re-use of discarded material for energy generation
