

San Mauro Torinese, September 30, 2011

The new swatch books of Burgo fine coated papers have arrived.

Burgo Group is one of the world's leading manufacturers of coated papers, with a wide range of papers to meet every request from its customers. This variety is now presented in the new swatch books of **R4, R4 Chorus, Tecno^{plus}, Respecta, Respecta 60** and **Respecta 100** fine coated papers. Paper for web offset or sheet-fed offset printing of brochures, photographic books, luxury commercial publications and environmental reports, ideal to bring out creativity and imagination and to underline the company's commitment to the environment. All the swatch books come with printed and white samples in all the finishes and substances to make it easier to choose the most suitable paper.

High fidelity

To faithfully reproduce the spectacle of the imagination, the paper must be "*high fidelity*". Like the trust that the tamer expects from the tiger jumping through a ring on the cover of the new **R4** and **R4 Chorus** swatch books, the woodfree coated papers that are designed to grasp every detail and nuance of the creativity.

Destination Nature

A hot-air balloon sails over beautiful landscapes on the covers of the new **Respecta, Respecta 60** and **Respecta 100** swatch books, woodfree coated papers with FSC® and FSC® recycled certification which confirm Burgo's concrete commitment to the protection of the environment and to sustainability.

A leap forwards

If you want to achieve the best performance, you must constantly strive forwards, like the athlete on the **Tecno^{plus}** cover, the fine coated paper designed to be even more reliable and even more surprising.

The new swatch books can be requested to the sales network while all the information and the complete spec sheets can be found on the site <http://www.burgopapers.com>
