

NEWS BURGO GROUP AT ECOMONDO 2023

ALTAVILLA VICENTINA, 31 OCTOBER 2023

From 7 to 10 November in Rimini, Burgo Group will participate in Ecomondo 2023, the reference event for companies facing the ecological transition.

Burgo Group announces its participation in the twenty-sixth edition of **Ecomondo**, the international reference event for Europe and the Mediterranean basin about the ecological transition. Ecomondo will take place **from 7 to 10 November 2023 at the Fiera di Rimini Exhibition Centre**.

Ecomondo offers an important meeting point for industries, stakeholders, policymakers, opinion leaders, and local authorities, to gather and systemise the key elements and define the development strategies of the European Union's environmental policy.

The Group continues to pursue its **ESG strategy**, represented by the logo and project **GO2030 GROWING SUSTAINABLY**, also through dialogue and training.

The first-ever participation in Ecomondo is a step in the sustainability path undertaken by the Group through a **roadmap of actions** and a **series of measurable goals**, in line with the seventeen Sustainable Development Goals embraced in 2015 by the United Nations.

Burgo Group experts will welcome interested visitors to its stand at Ecomondo expo – hall B2, stand 209 – to introduce four important Group companies: **Mosaico Specialty Papers, Burgo Recycling, Burgo Energia and BCB Containerboard.**

In addition to the stand presence, Burgo Group has organised a **workshop** focused on the sustainable approach to paper production. The appointment is on **Wednesday 8 November 2023 in the Workshop Area of Hall B2, from 2 to 3 pm.**

Stefano Carraro, Burgo R&D Manager, will illustrate the operational context and the Group's approach to the definition, design, and production of products in line with the sustainability policy.

BURGO GROUP

Burgo Group is a leading European manufacturer of papers for communication, speciality papers and paper for corrugated cardboard. The Group constitutes an actual 'system' developed around the world of paper: production, distribution, paper recycling and processing of forest products, but also factoring and energy. A complete range of high quality products, an aptitude for research and development of innovative solutions, and a strong focus on the environment: this is how Burgo Group has established itself as a key partner in the communication, printing, publishing, converting and packaging sectors, thanks to a business vision embedded in a wider system. It is no coincidence that the Burgo Group makes sustainable development and the principles of the circular economy a key aspect of its business and this is apparent in all its processes, from the purchase and use of resources, to the recovery of waste water and the optimisation and reuse of waste for energy production. The Burgo Group carries out its industrial activity through 10 plants, 9 in Italy and one in Belgium, with 12 production lines.
